Gauttham R

Head of Research at THEELABS · Puducherry, India · studying in Middlesbrough, UK
gautthamrajasekar@gmail.com · linkedin.com/in/gauttham-r-816ab32b4 · github.com/Gauttham4

SUMMARY

Head of Research who builds investigative tools: multi-agent systems on LangGraph, a voice agent that books real appointments, and a published evidence-integrity framework. Studying digital forensics to bring investigator-grade rigour to AI.

EDUCATION

MSc Digital Forensics and Cyber Investigation Sep 2026 - Sep 2027

Teesside University, Middlesbrough. In progress, semester 1. Modules include digital forensics and incident response, network forensics, mobile device forensics, and IT ethics and law.

B.Tech Information Technology Nov 2022 - May 2026

Puducherry Technological University. CGPA 9.20 / 10.

EXPERIENCE

THEELABS, Head of Research Jul 2026 - Present

Owning research direction for the company's voice and AI systems: model evaluation, evaluation design and trace analysis, agent and multi-tenant architecture, prototyping and feasibility. Built ClinicVoice, a Tamil and English phone agent running live at a clinic.

THEELABS, Intern Jan - Jun 2026

VKMG Pvt Ltd, Intern Jun - Jul 2025

DuskCoder Technosoft, Intern May - Jun 2024

SELECTED PROJECTS

CrimeIntelIX Published, IJIRE 2026

Tamper-proof evidence vault (AES-256, BLAKE3, Merkle tree), ArcFace face search under 1 ms at 10K records, RAG query engine, call-record graph analysis. Benchmarked on simulated data.

JARVIS LangGraph, personal assistant

My own AI assistant: routes each request to the right tool (shell, files, web search, VS Code, system info) and adds new skills on request, checked by 12 judged regression scenarios.

ClinicVoice Voice agent

AI receptionist for clinics: Tamil and English, real calendar bookings, reminder calls, emergency transfer.

SRC Task. A field-service app: the crew gets the job, the customer gets updates, the office gets paid.
Viksit.AI. An AI workspace that codes, searches and talks back.
DarkWatch. A pocket-sized dark-web detective. **Thaazhai.** Where farmers, buyers and agri-experts meet.

PUBLICATION

Dr. Santhi Baskaran, Gauttham R, Thangamani K, Methishwaran V. "BLAKE3-Merkle Cryptographic Framework with RAG-Powered AI for Tamper-Proof Evidence Management in Criminal Investigation". IJIRE, Vol. 7, Issue 2, Mar - Apr 2026, pp. 254-261.

ACHIEVEMENTS

HORIZON 25 (SRMIST), 2nd place. Hack Summit, Aaruush 25, Special Mention. HackHazards 25 participant.

SKILLS

AI: LangGraph, RAG, Multi-agent orchestration, Pinecone, Groq, Voice agents
Build: Next.js, React, Flutter, FastAPI, Node, PHP
Languages: TypeScript, Python, Dart, Java, C / C++
Security and forensics: Digital forensics, Incident response, Cryptographic evidence integrity, OSINT

CERTIFICATIONS

Advanced Computer Programming (diploma). Advanced Java (diploma).
